The sooner you mail in your ballot, the more time there is for potential monkey business around it. Wait until election day to vote in person at what's left of precincts listed inside the cover of your County of Marin green ink voter information guide, or mail in early March. Candidates may drop out and new information on them will be forthcoming.

-----  
The Democratic National Committee endorsement cards are in the mail. Their preferred candidates are usually part of the Professional Managerial Class parasitic structure feeding off decades of taxes and community participation of those who built and funded Marin County. They are terrified of change, even if it means continual civic decay. Election after election, masochistic voters chose their candidates then lose representation and wonder why traffic, public safety and taxes grow worse.

-----

Vote for most of the DNC slate and you are selecting your family's DEI disenfranchisement, homeless attracting funding, lack of law enforcement, sociological gobbledygook, more control, and acquiescence to the legislature's forced housing policies.

The Left Wing Kneejerk Reactionaries, Silicon Valley and Wall Street elite have well funded candidates. Billions in ad buys don't blind people to the civic and economic degradation around them like it once did.

Who are the alternatives?

The Republican Central Committees are locals who influence the kind of candidates presented to the electorate. They control where the donations go and how they are spent. If you are unhappy with how many local races Republicans have won, then vote for those with fresh ideas and enthusiasm who embody change and who can begin to retake local offices. They are at the top of this email.

Be nice to your neighbors, even if they are politically misguided. They can often become your strongest ally after decades of Delusions.
